

## Click Video Terms and Conditions

### The Booking

A booking is only confirmed once a deposit and signed contract has been received. We often receive multiple inquiries for certain dates of the year, and are unable to provisionally hold any date, without payment of the deposit.

(Deposit: 50 % of the full amount / 30% after the event / Balance when final product is ready)

The deposit is non-refundable. If the booking is canceled less than four months prior to the event, the client is liable to pay 70% of the full price.

### Destination Weddings

Destination weddings do incur additional costs which can include - flights, taxi's, accommodation, food, car rental etc.

If the wedding is a Saturday in one location we like to arrive on the Friday; if the wedding is in multiple locations and we are using a rental car we like to arrive on the Thursday. That gives us time to see all the venues and film establishing shots.

For destination weddings travel days are charged @ \$250 per day.

### The Edit

We use our discretion when editing. However, if you'd like more of a say in the editing process, clients are very welcome to do so, however this will incur an additional charge. This also applies to any changes requested, by the client, once the video is complete. Technical errors will be corrected without charge.

We reserve the right to use all footage filmed, for our promotional purposes. Please let us know at the time of booking if you'd rather this didn't happen and we'll be happy to oblige.

### The Final Product

It takes us roughly four weeks (dependent on the time of year) from the date of your wedding, to complete the final edit. Editing is not started until all the music for your wedding video has been submitted. If you'd like us to choose the music for you, we are most happy to do so, otherwise we request that you submit a CD or USB of 10 to 15 songs to us, before your wedding to ensure we begin editing your video as soon as possible.
